

RALPH LAWRENCE F. GARCIA

+63 952-463-2406

rlawrencegarcia03@gmail.com

Quezon City, Philippines

EDUCATION

University of the East | 2022-2026

Bachelor of Science in Data Science

- College Scholar
- Academic Achiever (2022-2026)

WORK EXPERIENCE

University of the East – Ramon Magsaysay Memorial Medical Center (UERM)

Data Quality Assurance Analyst

- Systems Development / Data & Process Improvement | 2026
- Developed internal web systems for document management, KPI monitoring, and workflow automation.
- Designed and implemented Knowledge Hub, including document management, search, notifications, and department-based access control.
- Designed SQL databases for users, departments, documents, permissions, and system records.
- Developed and enhanced a KPI Monitoring & Analytics System with automated performance classification and reporting.
- Created KPI visualizations and department-level analytics for performance monitoring and quality improvement.
- Automated recurring workflows and administrative processes to reduce manual work.
- Performed system testing, debugging, troubleshooting, and continuous feature improvements.

Ayala Corporation | 2026

Intern (Leasing & Data Department)

- Automated repetitive tasks using Python, improving workflow efficiency
- Processed and organized data to support business reporting
- Collaborated with team members to identify areas for process improvement

Starbucks | 2022-2023

Barista

- Delivered high-quality customer service in a fast-paced environment
- Managed multiple orders efficiently while maintaining accuracy
- Strengthened communication and teamwork skills

PUBLICATIONS

- Factors Contributing to the Negative Online Learning Academic Self-Concept of College Students – International Conference on Computers in Education (ICCE 2024)
- Predicting Suspected Predatory Open Access Computing Journals – Association for Computing Machinery (ACM 2024)

PROJECTS & RESEARCH

PredScan: Detecting Predatory Journals (Machine Learning)

- Built a model to identify suspicious open-access journals
- Applied data analysis and classification techniques

Quality Improvement System – UERM

- Developed a web-based system supporting quality improvement projects, monitoring, and organizational workflows.
- Implemented digital project management, monitoring, documentation, and reporting features.
- Automated processes to reduce manual administrative work and improve workflow efficiency.

EASTELLA: Agentic Information Software (Documentation)

- Documented system architecture and workflow
- Supported development clarity for technical teams

Algebot: Educational Chatbot

- Created documentation for chatbot assisting algebra learning
- Focused on usability and structured learning flow
- Knowledge Hub / Document Management System

Knowledge Hub – Document Management - UERM

- Developed and maintained a web-based document management and knowledge-sharing system for organizational use.
- Implemented department-based access control to manage document visibility and user permissions.
- Developed document upload, categorization, notification, and search functionalities.
- Designed database structures using SQL to manage users, departments, documents, and access permissions.
- Integrated cloud storage using AWS S3 for secure document storage and retrieval.
- Automated system processes to reduce manual administrative tasks.

KPI Monitoring & Analytics System

- Developed a KPI monitoring system for tracking departmental performance and reporting periods.
- Implemented automated classification of KPI results into Achieved and Not Achieved.
- Created data visualizations including performance trend charts and status distributions.
- Designed automated monitoring workflows for recurring KPI reporting.
- Developed department-level analytics to identify trends and recurring performance issues

FMA School Website – Web Development Project

- Designed and developed a responsive school website from concept to deployment.
- Built the website interface and interactive components using HTML, CSS, and JavaScript.
- Implemented structured navigation and content organization to improve accessibility and user experience.
- Optimized the website layout for different screen sizes and devices.
- Managed website assets, content integration, and deployment.

Other Research Works:

- Text Mining on Philippine News Coverage
 - Sentiment Analysis of Presidential Speeches (Top 4 – SAS Curiosity Cup 2025)
-

CERTIFICATIONS

- Google Workspace Certification & AI Training Workshop – Google
 - Meta AI (Issued Apr 2025) – AI Singapore
 - ASEAN Data Science Explorers 2025 - SAP, Asean Foundation
-

HONORS & AWARDS

- Cum Laude – University of the East (June 2026)
- Top 5 Finalist – Curiosity Cup International Research Competition, SAS Institute (Mar 2025) Research: Leadership in Context: Comparative Analysis of Philippine Presidential Speeches

SKILLS

Technical Skills:

- Programming: Python, R, SQL, Java
- Data Science: Data Analysis, Data Wrangling, Statistical Analysis, Data Visualization
- Machine Learning: Supervised Learning, Predictive Modeling
- Artificial Intelligence: AI Applications, Natural Language Processing
- Automation: Workflow Automation, Process Automation
- Database: SQL, Relational Database Design
- Cloud: AWS S3
- Tools: Git, GitHub, Microsoft Excel (

Core Competencies:

- Analytical & Critical Thinking
- Problem-Solving
- Communication & Presentation
- Team Collaboration
- Adaptability
- Project Coordination
- Research & Technical Writing
- Online Learning Self-Concept Study

LEADERSHIP & ORGANIZATIONS

UE Data Science Society – Finance Executive

- Managed financial records and organizational funds
- Assisted in budgeting and event planning
- Coordinated with team members for organizational activities
